### ABSTRACT

The goals of the Career Motivation Program in the Akron Public Schools are to provide students in grades K-6 with activity-centered experiences geared to the development of self-concepts and attitudes toward work and an appreciation of all vocations and the dignity of all workers. Career motivation is the first phase of the Career Development Program; it is based on the belief that every healthy individual is at work at something, and its final outcome is the integration of career education into the total curriculum of the schools. Career motivation activities are presented in the guide to provide teachers at the grade 5 level with suggestions for introducing career education into the curriculum. The quide is divided into 26 units: language arts (two units); mathematics (one unit); health (six units); science (eight units); and social studies (nine units). Each unit contains: objectives, concepts, teacher approach and pupil activities, references and materials, and goal statements. (Author/EC)

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\* Documents acquired by ERIC include many informal unpublished \* materials not available from other sources. ERIC makes every effort \* to obtain the best copy available. Nevertheless, items of marginal \* \* reproducibility are often encountered and this affects the quality \* of the microfiche and hardcopy reproductions ERIC makes available \* via the ERIC Document Reproduction Service (EDRS). EDRS is not \* \* responsible for the quality of the original document. Reproductions \* \* supplied by EDRS are the best that can be made from the original. \*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

### CAREER MOTIVATION PROGRAM

Grade 5

AKRON PUBLIC SCHOOLS 1972

Prepared By
The Office Of Career Education

Dr. Lloyd W. Dull Assistant Superintendent Curriculum and Instruction

Mrs. Esther S. Owen, Director Elementary Education

Nicholas J. Topougis, Coordinater Career Education Programs

committee of classroom teachers to create and develop a Career Mctivation Guide for the ongoing curriculum areas in the Akron Public Schools. During the 1971-1972 school year the Career Education Program in Akron sponsored and coordinated a

Classroom teachers who contributed their time and skills included the following:

Mrs. Evelyn Kirk	Kindergarten
Mrs. Irene Rowe	First Grade
Mrs. Violet Barden	Second Grade
Mrs. Irene Rowe	Second Grade
Mrs. Jean Halfhill	Second Grade
Mrs. Jean Halfhill	Third Grade
Mrs. Judy Dotts	Fourth Grade
Mrs. Mary Becker	Fifth Grade
Mrs. Barbara Vassalotti	Fifth Grade
Miss Diane Sollberger	Sixth Grade
Mr. William Mannion	Curriculum Specialist

Coordination and format of the guide was provided by Mrs. Roberta Ryan, Coordinator-Counselor, Seiberling Elementary School and Mr. Frederick Zeller, Coordinator-Counselor, Firestone Park Elementary School.

Mr. Nicholas Topougis, Project Coordinator provided administrative assistance.

# GENERAL INTRODUCTION

The ultimate goal of Career Motivation K-6 is the first phase of the Career Development Program. The ultimate goal the total Career Development Program K-10 is the realization and utilization of human potential for general improvement and upgrading of society. The goals of the Career Motivation Program are:

To motivate students to want to become a part of the World of Work.

To develop in students an awareness of the wide range of job opportunities, an appreciation of all work and the recognition that all work is honorable.

has assumed responsibility become jobs and accupations which are necessary for maintaining and improving Through Awareness, Appreciation, and Motivation the elementary school child will understand that work is a meaningful activity that he engages in at home and school. Later those tasks for which he his society and which are the most probable means for the realization of his own human capacity.

As the child progresses through elementary school and his world expands and becomes more complex, the Career Motivation Program will have special meaning for the child in his development as a person.

work at something, especially the elementary school child. By becoming aware of his responsibilities at home and at school and by appreciating the personal meaning that comes from meeting these responsibilities, the child develops Motivation for work in the elementary school. Through Career Orientation and Career Exploration Programs, their respect for work translates into career development. The K-6 Career Motivation Program is based on the belief that every healthy individual is at

dealth within the areas of self-awareness, self-acceptance, self-affirmation of interests, aptitudes, The affective stages of growth require that the child's feelings, perceptions, and beliefs are achievements, values, and attitudes.

\* ;

This gaide is intended to provide the elementary school teacher with Career Mctivation activities related to current curriculum in the Akron Public Schools. The components of the gaide are:

Curriculum Area Objectives

Concepts

Activities

Resources

Goal Statements

The final outcome of the Career Motivation Program is the integration of Career Education into the total curriculum of the schools.

### GRADE 5 - LANGUAGE ARTS

### READING - IMAGES

### OBJECTIVES:

1. To develop an understanding that mastery of reading skills exposes the reader to a wider variety of jobs in the World of Work.

### CONCEPTS:

- 1 ... Service workers are vital to modern society.
- 2. Hobbies can lead to a vocation.
- 3. Reading enlarges one's knowledge of the World of Work.

### LANGUAGE ARTS - READING

### TEACHER APPROACH AND PUPIL ACTIVITIES

- 1. Make a list of jobs where the worker produces a product, e.g., tire builder; make a second list where the worker performs a service, e.g., garbageman, mailman.
- 2. Discuss the need for city service workers such as the garbageman, mailman, policeman, etc., and what the city would be like without these workers.
- Visit the city's sanitation department and/or sewage treatment plant.
- 4. Read a story and discuss pictures of sanitation workers
- 5. Construct a time line showing the changes in diving equipment throughout the last three centuries
- 6. Invite a diver to explain his work and the equipment used.
- 7. Read books and articles on diving

EXPLORING THE MIDDLE ATLANTIC STATES

# OBJECTIVES:

1. To develop an understanding of why many people in the Middle Atlantic States are employed in jobs centering around manufacturing.

### CONCEPTS:

- 1. The location of industry depends on the availability of workers and energy and the cost of transporting raw materials and finished product.
- 2. Methods of transportation have changed.

#### TEACHER APPROACH AND PUPIL ACTIVITIES

#### REFERENCES AND MATERIALS

1. Compose a list of reasons why manufacturers choose a particular location for their factories; skilled workers, other factories, coal, money, customers, and transportation.

Τ.

2. Make a display of items manufactured in the Middle Atlantic States region.

2.

- 3. Show filmstrips that deal with the cities of the Middle Atlantic region and the jobs these cities provide.
- "The Middle Atlantic Seaboard Region: 3. Great Cities--Megalopolis" (McGraw-Hill)

4. Divide pupils into three groups and present each group with one of the following activities centered on the Middle Atlantic States and the jobs they provide:

read a story and answer on paper the discussion questions about the story; view a sound film strip using a small table size projector and earphones;

prepare in writing reports on the

four largest cities of the region.

EXPLORING THE ROCKY MOUNTAIN STATES

## OBJECTIVES:

1. To develop an awareness of the limited areas of work for the people of the Rocky Mountain region.

### CONCEPTS:

- 1. Sheep and cattle ranching are profitable in the Rocky Mountains.
- 2. National parks preserve the beauty of our forests and natural wonders.

### SOCIAL STUDIES - EXPLORING THE ROCKY MOUNTAIN STATES

### TEACHER APPROACH AND PUPIL ACTIVITIES

### REFERENCES AND MATERIALS

1. Study and discuss precipitation, population, and graphic relief maps of the Rocky Mountain region to understand why the people of the region find a limited amount of work.

Precipitation, graphic relief, and population maps of the Rocky Mountain region.

2. Show a filmstrip of the Rocky Mountain region to stress the importance of the work done in this region to the rest of the United States.

"The Rocky Mountain Area: Backbone of the Nation" (McGraw-Hill)

1.

3. Make reports on the occupations that can be found in the states in this region.

Men at Work in the Rocky Mountain States by Harry C. Rubicam

Picture Book of Idaho

Picture Book of Arizona

Picture Book of Colorado

Picture Book of Montana

Picture Book of Nevada

Picture Book of New Mexico

Picture Book of Utah

Picture Book of Wyoming

by Bernadine Bailey

4. Whip around the room asking students to say the first thing that comes to their minds when they hear the word "cowboy"

"American Cowboy"
"Songs of the Cowboy" (Akron Bd of Ed)
Cowboys and Cattle Trails by Shannon
and Warren Garst

5. Show filmstrips and read books on the work of the cowboy.
